

## REPORT FROM SERBIA 2011 - 2014

In the next five years it is expected even greater number of cancer diseased, because the uranium decontamination lasts about 20 years, and it has been 15 years now since bombing of Serbia.

In September 2011 we took a part in a seminar ESGO – PATIENTS PERSPECTIVE, held in Milano, Italy during the 17<sup>th</sup> International meeting of European associations for gynecology and oncology. The report was issued in a prestige magazine “Cancer” of Serbian society against cancer.

In the association ILCO Serbia, the number of patients and our members has increased to the number of 1200.

Slava 31<sup>st</sup> of October 2011, 2012, 2013

Every year we celebrate Slava of ILCO Serbia – St. Luka. On the occasion we have a priest from our rectory come in and cut bread, and our host of honor is usually a surgeon, doctor or someone who has contributed to our work. This is an inducement for patients from many parts of Serbia to come. It is important for the occasion to be accompanied by the media.

In February of 2012 we were guests of ILCO CROATIA in Varaždin. We were on their annual assembly and visited the Mayer of Varaždin and opened the path to cooperation between Belgrade and Varaždin which contributed to better appreciation of ILCO VARAZDIN in the future donations to the city.

APRIL, celebration of 10 years of work of ILCO SERBIA

There were representatives of Slovenia, Croatia, Romania, Poland, Czech Republic, the president of EOA, Ria with Kes.

During the first two days we showed them Belgrade, and then we went to the midland. We visited the Wood town, the hometown of Emir Kusturica, our famous producer. One day, we went to Bosnia and Herzegovina to the ethno village Stanišići, where Dragan Trivun was our host.

Every year we take part in lectures and workshops in the congress of doctors of general medicine. It is important because there are 1450 doctors from Serbia. They inform patients on the existence of associations of patients.

## REPORT II

We have partner cooperation with Association of stoma sisters of Serbia, and we take part in their seminars and congresses.

In 2012 in Serbia "Klinis" was founded. It is an association for clinical examination. Ilco Serbia is a member. Every year there are manifestations on the world clinical examination day, on May 20th.

January 2013.

We took a part in the project "Include yourself", which is designated for the persons with disabilities. It was held in the White Hall, and the host was Prince Aleksandar Karađorđević and an extraordinary motivational lecturer Dragan Vojvodić.

Ilco took a part in founding of topmost association of patients of Serbia which will make possible the common appearance in the realization of patients' rights, as an equal member, towards the government's institutions.

Jun 2013

We participated in the project of Ilco Romania for the young together with Italy, Denmark, Romania, and Bosnia and Herzegovina. Four of the young and Snežana as a mentor will make a good memory, and the young continued their communication.

At the beginning of July 2013 our friends from Hungary visited us. We showed them Belgrade and surroundings and we headed towards the midland of Serbia. They participated in the regular workshop on Wednesday.
